

Why is the Belfair Clinic proposing to be closed on Thanksgiving and Christmas

The Harrison Primary Care and Urgent Care Clinic in Belfair, WA is located at the corner of Hwy 3 and Romance Hill Rd. The Clinic is part of the Virginia Mason Franciscan Health network (VMFH) which operates multiple Urgent Care locations throughout the Puget Sound Region.

Mason County Public Hospital District #2(MCPHD2) contracts with VMFH and provides a subsidy to the Belfair Clinic. The contract allows us very limited control over clinic operations but does allow us control over the hours of operation.

The Belfair Urgent Care Clinic is currently the only clinic within VMFH that is open on Thanksgiving and Christmas. With urging from their staff, the management of the Belfair Clinic is requesting that MCPHD2 allow the clinic to also close on those two holidays.

We are conducting a Doodle Poll of the North Mason Area regarding this possible change in hours of operation and your participation would be appreciated. The poll will close on September 27, 2021.
